SUMMARY

Highly motivated and dedicated Computer Science Engineering graduate with a strong academic background. Skilled in problem-solving and analytical thinking, with a keen interest in software development and web technologies. Seeking to apply my skills and knowledge in a challenging and dynamic environment.

EDUCATION

Bachelor of Computer Science & Engineering

College of Engineering Perumon, Kerala
CGPA - 8.54

Nov 2021 - April 2025

CLASS XII (STATE BOARD)

ST. Goretti Higher Secondary School, Punalur
Percentage - 98.53%

June 2020 - March 2021

CLASS X (CBSE BOARD)

ST. THOMAS Higher Secondary School, Punalur
Percentage - 92.04%

June 2018 - March 2019

PROJECTS

EcoFishID: A CNN-Powered Web Application For Fish Species Recognition and Ecological Profiling

Led the development of an intelligent web application capable of classifying fish species and detecting diseases using a MobileNetV2 deep learning model. Crafted a user-friendly interface with HTML, CSS, and JavaScript, and managed server-side logic with Django. Enhanced user interaction through a chatbot offering instant support and ecological information.

E-WASTE System Website

Designed and developed a web application using HTML, CSS, JavaScript, and Django to facilitate the buying and selling of electronic waste. The platform encourages sustainable disposal practices and increases public awareness of e-waste management.

INTERNSHIPS

Web Development Trainee

Internshala Trainings | June – August 2024

Developed a web app (PG Life) for managing PG accommodations with features like user registration, property search, and bookings, focusing on user experience and backend connectivity.
